The 5th International Conference on Emerging Trends in Electrical, Electronic and Communications Engineering - ELECOM 2024
20-22 November 2024

Following the successful previous editions of the International Conference on Emerging Trends in Electrical, Electronic and Communications Engineering (ELECOM), we are delighted to announce that the 5th edition will take place in the volcanic Island of Mauritius, famous for its pristine white beaches, turquoise lagoons as well as its cultural diversity and harmony. ELECOM 2024 is the premier event that brings together scholars from industry, academia, and a wider community of scientists to exchange information and ideas on electrical, electronic, communications engineering and computing. For this edition of the conference, we are pleased to announce our collaboration with the Christ (Deemed to be University), Bangalore, India. The conference will feature a comprehensive technical program offering invited lectures and numerous technical sessions with papers showcasing the latest technologies, applications and services. Full length original research contributions are invited for submission to ELECOM 2024. Submissions, not exceeding 6 pages, and formatted based on the provided IEEE template should be submitted in PDF through the conference submission system. Accepted papers will be submitted for inclusion into IEEE Xplore subject to meeting IEEE Xplore's scope and quality requirements. Research themes for ELECOM 2024 include, but are not limited to:

- Electrical Machines, Automation, Instrumentation and Control
- Smart Grid, Renewable Energy and Storage Technologies
- Power Systems and Power Electronics
- Digital Signal and Image Processing and Machine Learning
- Digital System, Logic Design, Mechatronics Engineering, Integrated and Embedded systems
- Opto-electronics, Biomedical devices, sensing and measurement
- Internet of Things and Next Generation Networks
- Mobile and Wireless Communications
- Communication Theory and Signal Processing
- Cloud Computing, Big Data Analytics, Quantum Computing and Security
- Web and Educational Technologies, Mobile Applications and Social Networks
- Intelligent Systems for Multimedia Computing and Control

Keynote Speakers

1. Biometric Recognition: How do I Know Who You are? - Distinguished Professor Anil Jain, Michigan State University, US
2. Advanced Control Strategies for Wave Energy Conversion System - Professor Boris Dumnić, University of Novi Sad, Serbia.

Special Sessions

1. Contemporary Applications of Artificial Intelligence in Wireless Communications - Dr. Mobayode O. Akinsolu
2. Unconventional Technologies in Electronics - Dr Snezana Djuric
